Be a part of India's largest event for Warehousing Industry

Warehousing Asia is the most renowned and dynamic business-to-business show catering to India's warehousing and logistics industry. With the success story of third editions, the show has enjoyed being the sole trading voice for Warehousing Storage, PEB Infrastructure, Automation, Material Handling Solution, Logistics, IT Solutions and Data Storage Solutions. Cold Storages and Warehousing companies have been the permanent target audience for Warehousing Asia as they are the biggest consumers of equipment and technology.

Warehousing Asia extends a unique platform to meet and interact both Indian and International brands. It brings together manufacturers and suppliers to meet end-users, distributors, consultants and other key stakeholders from across the globe. The show empowers visitors and exhibitors to build new and strengthen existing contacts, learn new industry trends, technologies and upgrade their existing products and services.

Indian Market Scenario

The India Warehousing Market Is Witnessing Significant Growth, Driving by Several's Factors That Are Shaping its expansion and evolution. One of the primary drivers is the booming e-commerce sector, which demands extensive and efficient warehousing solutions to manage the supply chain and meet the increasing consumer expectations for fast delivery. The rise of online shopping has necessitated the development of large-scale, technologically advanced warehouses capable of handling high volumes of goods with precision and speed.

Why Srinagar, Jammu & Kashmir

- Srinagar is conveniently located with access to major transport hubs and markets
- Srinagar's picturesque setting and cultural richness attract visitors, providing additional opportunities for businesses to thrive and ensuring fresh, high-quality food in the hospitality sector
- Developing warehousing infrastructure can significantly contribute to the local economy by creating job opportunities, attracting investments, and supporting the growth of local businesses.
- Establishing warehousing facilities in Srinagar enhances connectivity with other regions, optimizing distribution networks.

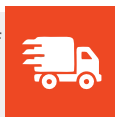

Stunning Srinagar: The Pulse of India's Progress

The government is committed to integrating Srinagar into the global supply chain network, enhancing its strategic importance and economic growth.

To bring down the logistics costs of commodities from 30% to 10%, The State Government announced setting up of logistic parks in the State.

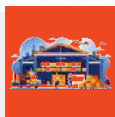

Ensuring last mile connectivity and facilitating industrial clearances through single window approach

The North-South Freight corridor does pass through the region of Srinagar to Kanyakumari

An integrated Logistics Park can be developed on a minimum of 50 acres of land

The government and DP World have agreed to develop multi-modal logistics parks and hubs in Jammu, including warehouses and specialized storage solutions. This will promote inter-modal transfer of container, bulk, and break-bulk cargo, with plans to expand to the Kashmir valley later.
